LET'S TALK
WHAT IS P@Y?

P@Y consolidates payment acceptance by triggering, directing, and validating all transactions right at the table. Combined with our SmartMenus, you can provide guests a powerful, contactless menuing option.

BeerBoard's tech can help you solve a new challenge

Seamless integration with your current POS and payment platform. Provide your guests a fast, easy transaction to pay their bill.

Contactless Menus

SmartMenus is a digital, contactless menu accessed by QR Code. Engage guests by incorporating video and images to highlight your complete menu

Seamless Integration

Payments through BeerBoard's *P@Y* roll into the same daily batch at each location. No second merchant account or program is required).

Customer Friendly

Even before they visit your location, customers have access to your FULL food, draft, bottle/cans and wine lists, including complete brand information.

Payments Simplified

P@Y simplifies the payment process for retailers, consolidating payment acceptance flow by triggering, directing, and validating transactions right at the table
