PLU Management
Digitize Your Bar Management

One Centralized Platform to Manage All LBW

- Automated Suggested Orders by Location's Historical Rate Of Sale (ROS)
- Mandate / Guardrail Management
- Underperforming / Suggested Brands
- Exception Based Alerts
- Open / Closed Order Tracking
- Integration into Back-Office

Automated PLU creation & New Item Request Workflows

Core & Rotating PLU Management

- ✓ BeerBoard will maintain a database of all PLUs.
- ✓ One-time upload of master PLU list with core products and a range of client-provided PLUs for use in PLU creation
- ✓ PLUs assigned to product/size combinations based on the master PLU list

Automated PLU Management with Product Approval

- ✓ BeerBoard will maintain a database of all PLUs.
- ✓ One-time upload of master PLU list with core products and a range of client-provided PLUs for use in PLU creation
- ✓ BeerBoard will work with retailer's POS/IT team to design a workflow to best suit its business practices, including:
  — Current and upcoming product management
  — Product approval workflow with POS integration (email)
  — Product guardrails and mandates management

* Manual PLU Management:
Easily maintain PLUs on SmartBar following a one-time upload of master PLU list
